
Correction

Avi Z. Rosenberg and Jeffrey B. Kopp: Focal Segmental Glomerulosclerosis. *Clin J Am Soc Nephrol* 12: 502–517; published ahead of print February 27, 2017, doi:10.2215/CJN.05960616.

Due to author error, a correction has been issued for the above referenced article. The following sentence inaccurately spells out suPAR. The text should have read “soluble urokinase-type plasminogen activator receptor” instead of “serum urine-type plasminogen

activator receptor”. The authors regret any confusion this may have caused to readers.

“Current candidates for the recurrent FSGS factor, reviewed recently (44), include cardiotrophin like cytokine factor 1 (45), apoA1b (an isoform of ApoA1) (46), anti-CD40 antibody (47), and serum urine-type plasminogen activator receptor (suPAR) (48).”
