Alexander James Hamilton, Fergus J. Caskey, Anna Casula, Carol D. Inward and Yoav Ben-Shlomo: Associations with Wellbeing and Medication Adherence in Young Adults Receiving Kidney Replacement Therapy. *Clin J Am Soc Nephrol* 13: 1669–1679, 2018; published ahead of print October 16, 2018, doi: 10.2215/CJN.02450218.

Due to author error, a correction has been issued for the above referenced article.

The following three references should have been included within the article:

- Morisky DE, Ang A, Krousel-Wood M, Ward HJ: Predictive validity of a medication adherence measure in an outpatient setting. *J Clin Hypertens (Greenwich)*, 10: 348–354, 2008

- Krousel-Wood M, Islam T, Webber LS, Re RN, Morisky DE, Muntner P: New medication adherence

scale versus pharmacy fill rates in seniors with hypertension. *Am J Manag Care*, 15: 59–66, 2009

- Morisky DE, DiMatteo MR: Improving the measurement of self-reported medication nonadherence: response to authors. *J Clin Epidemiol*, 64: 255–257; discussion 258–263, 2011

‘Medium adherence’ of the 8-item Morisky Medication Adherence Scale groupings was described in integer terms (scale score of 6–7), which is potentially misleading. A more accurate scale score of 6–<8 should have been used.

The following statement should have been included within Acknowledgements: “Use of the MMAS is protected by United States copyright laws. Permission for use is required. A license agreement is available from Morisky Research LLC.”
