
Correction: Inherited Tubulopathies of the Kidney: Insights from Genetics

Downie ML, Lopez Garcia SC, Kleta R, and Bockenhauer D: Inherited tubulopathies of the kidney: Insights from genetics. *Clin J Am Soc Nephrol* 16: 620–630, 2021; doi: <https://doi.org/10.2215/CJN.14481119>.

Because of an author error, the following sentence “Isolated proximal RTA is exceedingly rare, is associated with eye abnormalities, and is caused by mutations in the basolateral sodium/bicarbonate exchanger

SLC4A4 (31)” is incorrect. The sentence should read as “Isolated proximal RTA is exceedingly rare, is associated with eye abnormalities, and is caused by mutations in the basolateral sodium/bicarbonate cotransporter SLC4A4 (31).”

See related article, “Inherited tubulopathies of the kidney: Insights from genetics,” in Vol. 16, Iss. 4, on pages 620–630.
